1. Basis of Presentation and Business Description

The accompanying consolidated financial statements include the accounts of World Wrestling Entertainment, Inc., and our subsidiaries. We are an integrated media and entertainment company, with operations organized around four principal segments:

Live and Televised Entertainment

- Revenues consist principally of ticket sales to live events, sales of merchandise at these live events, television rights fees, sales of television advertising and sponsorships, and fees for viewing our pay-per-view and video on demand programming.

Consumer Products

- Revenues consist principally of the direct sales of WWE produced home videos and magazine publishing and royalties or license fees related to various WWE themed products such as video games, toys and books.

Digital Media

- Revenues consist principally of advertising sales on our websites, sale of merchandise on our website through our WWEShop internet storefront and various broadband and mobile content.

WWE Films

- Revenues consist of our share of receipts from the distribution of filmed entertainment featuring our Superstars. We participate in revenues generated under the distribution of the films through all media after the print and advertising and distribution costs incurred by our distributors have been recouped and the results have been reported to us.

All intercompany balances have been eliminated in consolidation. The accompanying consolidated financial statements are unaudited. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of financial position, results of operations and cash flows at the dates and for the periods presented have been included. The results of operations of any interim period are not necessarily indicative of the results of operations for the full year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Certain information and note disclosures normally included in annual financial statements have been condensed or omitted from these interim financial statements; these financial statements should be read in conjunction with the financial statements and notes thereto included in our Form 10-K for the year ended December 31, 2007.

Recent Accounting Pronouncements

Effective January 1, 2008, we adopted Statement of Financial Accounting Standard No. 157, Fair Value Measurements, or SFAS 157, which establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. SFAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. SFAS 157 also requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows:

- Level 1- quoted prices in active markets for identical assets or liabilities;
- Level 2- quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or
- Level 3- unobservable inputs, such as discounted cash flow models or valuations

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following assets are required to be measured at fair value on a recurring basis and the classification within the hierarchy as of March 31, 2008:

	Quoted Market Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value at March 31, 2008
Municipal bonds	\$ -	\$ 41,465	\$ -	\$ 41,465
Auction rate securities	-	-	33,571	33,571
Other	234	3,583	-	3,817
Total	\$ 234	\$ 45,048	\$ 33,571	\$ 78,853

Certain financial instruments are carried at cost on the consolidated balance sheets, which approximates fair value due to their short-term, highly liquid nature. These instruments include cash and equivalents, accounts receivable, prepaid expenses, accounts payable and accrued expenses.

We have classified our investment in auction rate securities (“ARS”) within Level 3. Starting in February 2008, we experienced difficulty selling our investment in ARS due to multiple failures of the auction mechanism that provides liquidity to these investments. The securities have been classified within Level 3 as their valuation requires substantial judgment and estimation of factors that are not currently observable in the market due to the lack of trading in the securities.

(unaudited)

The table below includes a roll forward of our investments in ARS from January 1, 2008 to March 31, 2008, and a reclassification of these investments from Level 2 to Level 3 in the valuation hierarchy.

	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Fair Value January 1, 2008	\$ 77,335	\$ -
Purchases	46,780	-
Sales	(89,765)	-
Transfers (out) in	(34,350)	34,350
Unrealized (losses)	-	(779)
Total	<u>\$ -</u>	<u>\$ 33,571</u>

In February 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement 115* (SFAS 159). SFAS 159 expands opportunities to use fair value measurements in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS 159 is effective for us as of January 1, 2008, but we did not elect to measure any additional financial instruments at fair value as a result of this statement. Therefore, the adoption of SFAS 159 has not had an impact on our Consolidated Financial Statements.

2. Share Based Compensation

Effective May 1, 2006, we adopted SFAS 123(R) *Share based Payments*, using the modified prospective method. Prior to May 1, 2006, we accounted for stock option grants using the intrinsic value method. Compensation expense relating to grants of restricted stock units (RSUs) are recognized over the period during which the employee rendered service to the Company necessary to earn the award. In accordance with the modified prospective method, results for prior periods have not been restated. Stock based compensation cost was approximately \$2,805 and \$2,118 for the three months ended March 31, 2008 and 2007, respectively. We have not issued options since June 2004. At March 31, 2008, 901,402 stock options were outstanding with a weighted average exercise price of \$13.46 per share.

During the quarter, we granted 50,000 RSUs as part of our 2007 Omnibus Incentive Plan at a weighted average grant date fair value of \$18.48 per share. Total compensation cost related to these grants, net of estimated forfeitures, is \$850. The compensation is being amortized over the service period, which is approximately three years. At March 31, 2008, 735,817 RSUs were unvested with a weighted average fair value of \$15.14 per share.

During the quarter, we granted approximately 480,500 performance stock units (PSUs) as part of our 2007 Omnibus Incentive Plan at a weighted average grant date fair value of \$18.83 per share. Total compensation cost related to these PSUs, based on the estimated value of the units on the issuance dates, net of estimated forfeitures, is \$8,324. The current quarter issuance is subject to the Company achieving established earnings targets for the financial results of the year ending December 31, 2008. The compensation is being amortized over the service period, which is approximately three and one-half years. If these goals are met, the shares granted will vest in equal annual installments. At March 31, 2008, 1,125,607 PSUs were unvested with a weighted average fair value of \$17.21 per share.

3. Stockholders' Equity

In February 2008, we announced an increase in the quarterly cash dividend on all Class A and Class B common shares to \$0.36 per share from the previous \$0.24 per share. However, the members of the McMahon family, who hold the Class B common shares, have waived their rights to any portion of the quarterly cash dividend in excess of the first \$0.24 per share for a period of three years. Accordingly, we paid cash dividends of \$20,203 in the aggregate in March 2008. In the prior year, we paid quarterly dividends of \$0.24, or \$17,056 in the aggregate, on all Class A and Class B common shares for the three months ended March 31, 2007.

4. Earnings Per Share

For purposes of calculating basic and diluted earnings per share, we used the following weighted average common shares outstanding:

	Three months ended	
	March 31,	March 31,
	2008	2007
Basic	72,297,824	71,041,026

Dilutive effect of outstanding options, RSUs and PSUs	721,497	812,095
Anti-dilutive outstanding options	157,000	277,000

5. Segment Information

We do not allocate corporate overhead to each of the segments, and as a result, corporate overhead is a reconciling item in the table below. There are no inter-segment revenues. Revenues derived from sales outside of North America were approximately \$33,975 and \$24,072 for the three months ended March 31, 2008 and 2007, respectively. Unallocated assets consist primarily of cash, investment securities, real property and other investments.

World Wrestling Entertainment, Inc.
Notes to Consolidated Financial Statements
(dollars in thousands)
(unaudited)

Unamortized feature film production assets are evaluated for impairment each reporting period. If the estimated revenue is not sufficient to recover the unamortized asset, the asset will be written down to fair value. As of March 31, 2008, we do not believe any capitalized assets included in Feature Film Production Assets are impaired.

We estimate that approximately 62% of "In release" film production assets are estimated to be amortized over the next twelve months. Approximately 93% of "In release" film production assets are estimated to be amortized over the next three years.

We are currently filming one theatrical feature film, currently titled "12 Rounds", and one Direct-to-DVD film, currently titled "Behind Enemy Lines 3". These two projects comprise the \$4,420 "In production" balance and are tentatively scheduled for release in 2009. In addition to the capitalized production costs related to our films previously released and currently in production, we have also capitalized certain script development costs for various other film projects. Capitalized script development costs are reviewed periodically for impairment, and are expensed if a project is deemed to be abandoned. During the three months ended March 31, 2008 and 2007, we did not expense any previously capitalized development costs related to abandoned projects.

8. Intangible Assets

Intangible assets consist of acquired sports entertainment film libraries, trademarks and trade names. We have classified these costs as intangible assets and amortize them over the period of the expected revenues to be derived from these assets, generally from three to six years.

Intangible assets consisted of the following:

	As of March 31, 2008		
	Gross		Net
	Carrying Amount	Accumulated Amortization	Carrying Amount
Film libraries	\$ 7,740	\$ (6,255)	\$ 1,485
Trademarks and trade names	3,708	(3,155)	553
	<u>\$ 11,448</u>	<u>\$ (9,410)</u>	<u>\$ 2,038</u>

	As of December 31, 2007		
	Gross		Net
	Carrying Amount	Accumulated Amortization	Carrying Amount
Film libraries	\$ 7,667	\$ (6,005)	\$ 1,662
Trademarks and trade names	3,708	(3,068)	640
	<u>\$ 11,375</u>	<u>\$ (9,073)</u>	<u>\$ 2,302</u>

Amortization expense was \$337 for the three ended March 31, 2008, compared to \$419 for the three months ended March 31, 2007.

For the year ending December 31, 2009	941
For the year ending December 31, 2010	86

9. Investment Securities

Investment securities consisted of the following as of March 31, 2008 and December 31, 2007:

	<u>March 31, 2008</u>		
	Unrealized		
	Amortized Cost	Holding Gain (Loss)	Fair Value
Fixed-income mutual funds and other	\$ 123	\$ 111	\$ 234

Municipal bonds	41,459	6	41,465
Total	<u>\$ 75,932</u>	<u>\$ (662)</u>	<u>\$ 75,270</u>

	<u>December 31, 2007</u>		
	Unrealized		
	Cost	Loss	Fair Value
Fixed-income mutual funds and other	\$ 54,175	\$ (962)	\$ 53,213
Auction rate securities	77,335	—	77,335
Total	<u>\$ 131,510</u>	<u>\$ (962)</u>	<u>\$ 130,548</u>

On February 13, 2008, we started to experience difficulty in selling our investments in auction rate securities (“ARS”) due to multiple failures of the auction mechanism that provides liquidity to these investments. All of our ARS are collateralized by student loan portfolios (substantially all of which are guaranteed by the United States Government). The securities for which the auctions have failed will continue to accrue interest and pay interest when due; to-date, none of the ARS in which we are invested have failed to make an interest payment when due. Our ARS will continue to be auctioned at each respective reset date until the auction succeeds, the issuer redeems the securities or they mature (the stated maturities of the securities are greater than 20 years); as we maintain a strong liquidity position, we currently believe that we have the ability to hold our ARS until one of the aforementioned remedies occurs.

As of March 31, 2008, we recorded an adjustment to reduce the fair value of our investment in ARS of \$779, which is reflected as part of accumulated other comprehensive income in our Consolidated Statement of Stockholders’ Equity and Comprehensive Income. We do not feel that the fair market adjustment is other-than-temporary at this time due to the high underlying creditworthiness of the issuer (including the backing by the United States Government) and our current intent to hold the ARS until the illiquidity in the ARS market is resolved. The fair value of the ARS was estimated through discounted cash flow models, which consider, among other things, the timing of expected future successful auctions, collateralization of underlying security investments and the risk of default by the issuer. We will continue to assess the carrying value of our ARS on each reporting date, based on the facts and circumstances surrounding our liquidity needs and developments in the ARS markets.

10. Income Taxes

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* ("FIN 48"). FIN 48 clarifies the accounting for income taxes by prescribing a minimum probability threshold that a tax position must meet before a financial statement benefit is recognized. As a result of the implementation of FIN 48 on January 1, 2007, we recognized a \$1,502 increase in the liability for unrecognized income tax benefits, with a corresponding decrease in the opening balance of retained earnings.

At the adoption date of January 1, 2007, we had \$10,382 of unrecognized tax benefits, all of which would affect our effective tax rate if recognized. At March 31, 2008, we have \$8,206 of unrecognized tax benefits that if recognized, would affect our effective tax rate.

We recognize potential accrued interest and penalties related to uncertain tax positions in income tax expense. We have approximately \$2,998 of accrued interest related to uncertain tax positions as of March 31, 2008.

We file income tax returns in the United States, various states and various foreign jurisdictions. With few exceptions, we are subject to income tax examinations by tax authorities for years on or after April 30, 2005.

Based upon the expiration of statutes of limitations and possible settlements in several jurisdictions, we believe it is reasonably possible that the total amount of previously unrecognized tax benefits may decrease by approximately \$2,000 to \$3,000 within 12 months of March 31, 2008.

There has been no significant development in this legal proceeding subsequent to the disclosure in Note 11 of Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2007, except as follows:

In the Connecticut litigation, on or about March 5, 2008, the court entered a case management order pursuant to which the case is exposed for trial as of May 1, 2010. Discovery is currently ongoing. On March 13, 2008, the Jakks Defendants filed motions for summary judgment and to strike, seeking the dismissal of the amended complaint in its entirety. On April 14, 2008, we filed our objection to those motions. In addition, on April 1, 2008, we filed a motion for summary judgment, seeking a holding that a release asserted by the Jakks Defendants to be a complete bar to all of our claims does not apply to the claims at issue. Oral argument on both parties' motions will be heard on May 19, 2008. On April 25, 2008, the THQ Defendants also filed a motion to strike all of the claims asserted against them in the amended complaint. We intend to object to that motion on or before May 12, 2008.

Item 2.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Background

The following analysis outlines all material activities contained within each of our business segments.

Live and Televised Entertainment

- Revenues consist principally of ticket sales to live events, sales of merchandise at these live events, television rights fees, sales of television advertising and sponsorships, and fees for viewing our pay-per-view and video on demand programming.

Consumer Products

- Revenues consist principally of direct sales of WWE produced home videos and magazine publishing and royalties or license fees related to various WWE themed products such as video games, toys and books.

Digital Media

- Revenues consist principally of advertising sales on our websites, sale of merchandise on our website through our WWEShop internet storefront and various broadband and mobile content.

WWE Films

- Revenues consist of our share of receipts from the distribution of filmed entertainment featuring our Superstars. Two feature films were released in 2006 and one film was released in 2007. We participate in revenues generated under the distribution of the films through all media after the print and advertising and distribution costs incurred by our distributors have been recouped and the results have been reported to us.

Our 2008 results were significantly impacted by the timing of our annual WrestleMania pay-per-view-event. In 2008, WrestleMania XXIV occurred on March 31, 2008 and is included in our first quarter results, however, WrestleMania 23 occurred on April 1, 2007 and was therefore recorded in the second quarter of 2007. WrestleMania XXIV contributed in the aggregate approximately \$31.3 million of revenues and \$7.1 million of profit contribution (\$4.6 million, net of tax), to our results for the first quarter of 2008, whereas WrestleMania 23 contributed in the aggregate approximately \$31.4 million of revenues and \$9.7 million of profit contribution (\$6.6 million, net of tax) in the second quarter of 2007.

Our Live and Televised Entertainment segment revenues benefited from the strength of both the WrestleMania live event attendance as well as the pay-per-view revenues. Our Consumer Products segment reflected a 27% increase in licensing based revenues, specifically from strong sales of our *SmackDown vs. Raw 2008* videogame. The increase in revenues for our Digital Media segment reflects a 62% increase in web advertising revenues. WWE Films revenue reflects amounts earned from our feature films “*The Marine*” and “*See No Evil*”.

The following chart reflects comparative revenues and key drivers for each of the businesses within our Live and Televised Entertainment segment:

* Six of the eight international events in the current quarter were buy-out deals with guaranteed revenue. In 2007, all eight international events were buy-out deals, and therefore the calculation of an average ticket price is not applicable.

Live events revenues increased primarily through the impact of our *WrestleMania* event, which had paid attendance of approximately 63,100 and generated approximately \$5.9 million in revenue. Average attendance at our North American events was approximately 7,200 in the current quarter as compared to 6,900 in the prior year. The average ticket price for North American events was \$45.39 in the current quarter as compared to \$36.30 in the prior year. Excluding the impact of *WrestleMania*, North American average attendance and ticket price was 6,300 and \$38.08, respectively, in 2008. Six of the eight international events performed in the current quarter were constructed as buy-out deals with local promoters that provided us with guaranteed revenues and limited the potential risk of performing these events in emerging markets. In the prior year, each of the eight international events performed were constructed as buy-out deals. The profit contribution margin for live events was 38% as compared to 29% in the prior year quarter, reflecting the impact of *WrestleMania* in the current quarter.

Venue merchandise revenues increased 8% from the prior year quarter due to an 8% increase in total attendance at our North American events, partially offset by a 1% decline in per capita spending by our fans. The profit contribution margin decreased from 37% to 34% in the current quarter due to the mix of product sold at venues.

Pay-per-view revenues increased \$25.4 million in the current quarter, impacted by the inclusion of *WrestleMania* in the current quarter. Our domestic retail price for the *WrestleMania XXIV* pay-per-view was increased by \$5.00 dollars to \$54.95 in the current year as compared to the prior year. *WrestleMania XXIV* generated approximately 1.1 million buys in the current quarter, or approximately \$23.8 million in pay-per-view related revenues. By comparison, *WrestleMania 23*, recorded in the second quarter of 2007, generated approximately 1.2 million buys, or approximately \$24.6 million in pay-per-view related revenues. Pay-per-view buys for the two events that occurred in both 2008 and 2007 increased by approximately 22% in the current quarter. Pay-per-view costs of revenues reflected significant production costs for *WrestleMania XXIV*, as it was performed in an outdoor stadium, the Citrus Bowl in Orlando, Florida. In addition, the current quarter included expenses for a significant consumer advertising and promotion campaigns. Based on these factors, the profit contribution margin for pay-per-view was 32% as compared to 65% in the prior year quarter.

The increase in television rights fees reflects rate increases internationally and additional rights fees for special domestic cable telecasts. The increase in television cost of revenues is due to an overall increase in the costs incurred to produce televised events, including costs associated with the production of telecasts in high-definition, which we successfully launched in the current quarter, as well as costs associated with television specials.

WWE 24/7 revenues reflect an increase in the number of subscribers to our video-on-demand service as the platform continued to become available in more homes. Currently, WWE 24/7 is available in approximately 80% of video-on-demand enabled homes in the United States.

The following chart reflects comparative revenues and certain drivers for selected businesses within our Consumer Products segment:

Consumer Products Revenues	March 31, 2008	March 31, 2007	better (worse)
Licensing	\$ 26.2	\$ 20.6	27%
Magazine publishing	\$ 2.9	\$ 2.9	-

Home video	6.4	5.8	(10%)
Other	0.2	0.2	-
Total	\$ 15.8	\$ 13.8	(14%)
Profit contribution margin	64%	63%	

Licensing revenues increased in part due to higher royalties earned related to sales of videogames and apparel in the current quarter. Videogame revenues increased by approximately \$5.0 million in the current quarter, reflecting the success of our *SmackDown vs. Raw 2008* title. In addition, royalties earned from the sales of our toys increased by approximately \$0.5 million in the current quarter. The increase in the licensing cost of revenues was due to higher commissions paid to international licensing agents and amounts paid to our talent.

Magazine publishing revenues were consistent with the prior year quarter. We published three magazines in both the current quarter and prior year quarter. We also published one special edition magazine in the current and prior year quarter. Increased printing and paper costs contributed to the higher magazine publishing cost of revenues in the current quarter.

Home video revenues increased by 4% in the current quarter, led by the successful release of two DVD titles, *The Legacy of Stone Cold Steve Austin* and *Triple H: King of Kings*, with each title shipping more than 175,000 gross units. Home video cost of revenues reflects an increase in the amount spent on distributing our home video products. This increase in expenses led to a decrease in the profit contribution margin to 54% in the current period as compared to 57% in the prior year quarter.

The following chart provides performance results and certain drivers for our Digital Media segment:

Digital Media Revenues	March 31, 2008	March 31, 2007	better (worse)
WWE.com	\$ 4.5	\$ 2.8	61%
WWEShop	3.5	4.0	(13%)

WWEShop	2.4	2.8	14%
Other	0.2	0.2	-
Total	\$ 4.7	\$ 5.0	6%
Profit contribution margin	42%	29%	

WWE.com revenues increased primarily due to additional advertising sold on our website. Web-based advertising revenues were \$2.9 million as compared to \$1.8 million in the prior year quarter, reflecting an increase in premium ads placed on our websites. In addition, revenues related to our wireless content represented approximately \$1.1 million as compared to \$0.7 million in the prior year quarter. The slight increase in wwe.com cost of revenues reflects additional support costs to operate our various web-based activities.

WWEShop revenues declined due to an 18% decline in the number of orders processed to approximately 67,700 in the current quarter. The decline in the number of orders processed was partially mitigated by a 5% increase in the average amount spent by customers per order.

WWE Films

During the current quarter we recorded revenue of \$11.3 million relating to two of our feature films, “*See No Evil*” and “*The Marine*”, and expensed approximately \$9.5 million of the associated production expenses. We are currently filming one theatrical feature film, currently titled “*12 Rounds*”, and one Direct-to-DVD film, “*Behind Enemy Lines 3*”. These projects are tentatively scheduled for release in 2009. No revenue was recorded in the prior year quarter

Selling, General and Administrative

The following chart reflects the amounts and percent change of certain significant overhead items:

	March 31, 2008	March 31, 2007	better (worse)
Staff related	\$ 13.6	\$ 12.6	(8%)
Legal, accounting and other professional	3.9	3.2	(22%)
Stock compensation costs	2.8	2.1	(33%)
Advertising and promotion	3.2	1.3	(146%)
All other	9.5	7.2	(32%)
Total SG&A	<u>\$ 33.0</u>	<u>\$ 26.4</u>	(25%)
SG&A as a percentage of net revenues	20%	25%	

The increase in staff related expenses partially reflects our international expansion and the employment of additional local personnel in locations such as Australia. Stock compensation expense in the current quarter includes expenses related to the amortization of stock unit grants. The increase in advertising and promotion expense primarily relates to brand awareness campaigns coinciding with *WrestleMania XXIV*. The advertising and promotion variance reflects a timing difference as *WrestleMania 23* occurred during the second quarter of 2007.

	March 31, 2008	March 31, 2007	better (worse)
Depreciation and amortization	\$ 2.5	\$ 2.3	(9%)
Investment income, net	\$ 1.7	\$ 2.3	(26%)

The decrease reflects realized investment losses of approximately \$0.3 million in the current quarter.

	March 31, 2008	March 31, 2007
Provision for income taxes	\$ 8.6	\$ 8.0
Effective tax rate	30%	35%

The effective tax rate in the current quarter reflects the reversal of tax reserves due to the expiration of the statute of limitations related to certain previously unrecognized tax benefits.

Liquidity and Capital Resources

Cash flows from operating activities for the three months ended March 31, 2008 and March 31, 2007 were \$15.0 million and \$24.7 million, respectively. Working capital, consisting of current assets less current liabilities, was \$242.7 million as of March 31, 2008 and \$276.1 million as of December 31, 2007.

Cash flows provided by investing activities were \$45.4 million for three months ended March 31, 2008, and cash flows used in investing activities were \$18.2 million for the three months ended March 31, 2007. Capital expenditures for the three months ended March 31, 2008 were \$9.6 million as compared to \$1.5 million for the three months ended March 31, 2007. Capital expenditures in 2008 primarily reflect equipment purchases for our transition to high definition broadcasting during the first quarter. Capital expenditures for the remainder of 2008 are estimated to range between \$10.0 million and \$20.0 million, primarily reflecting additional purchases of high definition broadcasting equipment and building related improvements.

Our investment policy is designed to preserve capital and minimize interest rate, credit and market risk. On February 13, 2008, we started to experience difficulty in selling our investments in auction rate securities ("ARS") due to multiple failures of the auction mechanism that provides liquidity to these investments. All of our ARS are collateralized by student loan portfolios (substantially all of which are guaranteed by the United States Government). The securities for which the auctions have failed will continue to accrue interest and pay interest when due; to-date, none of the ARS in which we are invested have failed to make an interest payment when due. Our ARS will continue to be auctioned at each respective reset date until the auction succeeds, the issuer redeems the securities or they mature (the stated maturities of the securities are greater than 20 years); as we maintain a strong liquidity position, we currently believe that we have the ability to hold our ARS until one of the aforementioned remedies occurs.

As of March 31, 2008, we recorded a negative adjustment to the fair value of our investment in ARS of approximately \$0.8 million, which is reflected as part of accumulated other comprehensive income in our Consolidated Statement of Stockholders' Equity and Comprehensive Income. We do not feel that the fair market adjustment is other-than-temporary at this time due to the high underlying creditworthiness of the issuer (including the backing by the United States Government) and our current intent to hold the ARS until the illiquidity in the ARS market is resolved. The fair value of the ARS was estimated through discounted cash flow models, which consider, among other things, the timing of expected future successful auctions, collateralization of underlying security investments and the risk of default by the issuer. We will continue to assess the carrying value of our ARS on each reporting date, based on the facts and circumstances surrounding our liquidity needs and developments in the ARS markets.

Cash flows used in financing activities were \$15.9 million and \$16.3 million for the three months ended March 31, 2008 and March 31, 2007, respectively. Total dividend payments on all Class A and Class B common shares in the three-month period ended March 31, 2008 were approximately \$20.2 million as compared to \$17.1 million in the prior year three-month period ended March 31, 2007. Assuming the continuation of these cash dividend rates of \$0.36 and \$0.24 per share and the same stock ownership, the estimated amount of dividends to be paid during the remainder of 2008 is estimated to be \$60.8 million.

Contractual Obligations

In addition to long-term debt, we have entered into various other contracts under which we are required to make guaranteed payments, including:

- Various operating leases for office space and equipment.
- Employment contract with Vincent K. McMahon, which runs through October 2009, with annual renewals thereafter if not terminated by us or Mr. McMahon, as well as a talent contract with Mr. McMahon that is coterminous with his employment contract. Mr. McMahon began waiving all of his compensation under these agreements in 2007, except for a salary of \$850,000 per year.
- Employment contract with Linda E. McMahon, which runs through October 2009, with annual renewals thereafter if not terminated by us or Mrs. McMahon. Mrs. McMahon began waiving all of her compensation under this agreement in 2007, except for a salary of \$500,000 per year.
- Other employment contracts which are generally for one to three-year terms.
- Service contracts with certain of our independent contractors, including our talent, which are generally for one to four-year terms.

Our aggregate minimum payment obligations under these contracts as of March 31, 2008 were as follows:

	Payments due by period				
	(\$ in millions)				
	12/31/08	2009 to 2010	2011 to 2012	After 2013	Total
Long-term debt (including interest expense)	\$ 1.0	\$ 2.7	\$ 2.7	\$ 0.4	\$ 6.8
Operating leases	1.6	2.5	1.3	1.3	6.7
Talent, employment agreements and other commitments	11.8	10.0	3.7	12.5	38.0
Total commitments	<u>\$ 14.4</u>	<u>\$ 15.2</u>	<u>\$ 7.7</u>	<u>\$ 14.2</u>	<u>\$ 51.5</u>

We believe that cash generated from operations and our existing cash and short-term investment securities will be sufficient to meet our cash needs over the next twelve months for working capital, capital expenditures and payment of quarterly dividends.

Application of Critical Accounting Policies

There have been no additional changes to our accounting policies that were previously disclosed in our Report on Form 10-K for our fiscal year ended December 31, 2007 or in the methodology used in formulating these significant judgments and estimates that affect the application of these policies. Amounts included in our consolidated balance sheets in accounts that we have identified as being subject to significant judgments and estimates were as follows:

	As of	
	March 31, 2008	December 31, 2007
Pay-per-view accounts receivable	\$39.0 million	\$15.7 million
Home video reserve for returns	\$9.1 million	\$6.7 million
Publishing newsstand reserve for returns	\$4.0 million	\$4.8 million
Allowance for doubtful accounts	\$1.3 million	\$1.4 million
Inventory obsolescence reserve	\$7.1 million	\$6.3 million

Recent Accounting Pronouncements

There are no other accounting standards or interpretations that have been issued, but which we have not yet adopted, that we believe will have a material impact on our financial statements.

Cautionary Statement for Purposes of the “Safe Harbor” Provisions of the Private Securities Litigation Reform Act of 1995

The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for certain statements that are forward-looking and are not based on historical facts. When used in this Quarterly Report, the words “may,” “will,” “could,” “anticipate,” “plan,” “continue,” “project,” “intend,” “estimate,” “believe,” “expect” and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such words. These statements relate to our future plans, objectives, expectations and intentions and are not historical facts and accordingly involve known and unknown risks and uncertainties and other factors that may cause the actual results or the performance by us to be materially different from future results or performance expressed or implied by such forward-looking statements. The following factors, among others, could cause actual results to differ materially from those contained in forward-looking statements made in this Quarterly Report, in press releases and in oral statements made by our authorized officers: (i) our failure to maintain or renew key agreements could adversely affect our ability to distribute our television and pay-per-view programming; (ii) our failure to continue to develop creative and entertaining programs and events would likely lead to a decline in the popularity of our brand of entertainment; (iii) our failure to retain or continue to recruit key performers could lead to a decline in the appeal of our storylines and the popularity of our brand of entertainment; (iv) the loss of the creative services of Vincent K. McMahon could adversely affect our ability to create popular characters and creative storylines; (v) a decline in general economic conditions could adversely affect our business; (vi) a decline in the popularity of our brand of sports entertainment, including as a result of changes in the social and political climate, could adversely affect our business; (vii) changes in the regulatory atmosphere and related private sector initiatives could adversely affect our business; (viii) the markets in which we operate are highly competitive, rapidly changing and increasingly fragmented, and we may not be able to compete effectively, especially against competitors with greater financial resources or marketplace presence; (ix) we face uncertainties associated with international markets; (x) we may be prohibited from promoting and conducting our live events if we do not comply with applicable regulations; (xi) because we depend upon our intellectual property rights, our inability to protect those rights, or our infringement of others’ intellectual property rights, could adversely affect our business; (xii) we could incur substantial liabilities if pending material litigation is resolved unfavorably; (xiii) our insurance may not be adequate to cover liabilities resulting from accidents or injuries that occur during our physically demanding events; (xiv) we will face a variety of risks as we expand into new and complementary businesses such as feature films; (xv) through his beneficial ownership of a substantial majority of our Class B common stock, our controlling stockholder, Vincent K. McMahon, can exercise control over our affairs, and his interests may conflict with the holders of our Class A common stock; (xvi) a substantial number of shares will be eligible for future sale by Mr. McMahon, and the sale of those shares could lower our stock price; and (xvii) our Class A common stock has a relatively small public “float”. The forward-looking statements speak only as of the date of this Quarterly Report and undue reliance should not be placed on these statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk is the potential for economic losses to be incurred on market risk sensitive instruments arising from adverse changes in market factors such as interest rates, foreign currency exchange rates and equity price risk. We have attempted to minimize exposure to market risk from changes in interest rates, foreign currency exchange rates and equity price risk. Our foreign currency exchange rate risk is minimized by maintaining minimal net assets and liabilities in currencies other than our functional currency.

Interest Rate Risk

We are exposed to interest rate risk related to our debt and investment securities. Our debt primarily consists of the mortgage related to our corporate headquarters, which has an annual interest rate of 7.6%.

Our investment portfolio currently consists primarily of fixed-income mutual funds and municipal auction rate securities, with a strong emphasis placed on preservation of capital. In an effort to minimize our exposure to interest rate risk, our investment portfolio's dollar weighted duration is less than one year.

Item 4. Controls and Procedures

Under the direction of our Chairman and Chief Executive Officer, as co-principal executive officers, and our Chief Financial Officer, we evaluated our disclosure controls and procedures and internal control over financial reporting and concluded that our disclosure controls and procedures were effective as of March 31, 2008. No change in internal control over financial reporting occurred during the quarter ended March 31, 2008, that materially affected, or is reasonably likely to materially affect, such internal control over financial reporting.
